

Hire an expert witness for your case.

Have you faced litigation for security-related issues? Each security litigation case is distinctly different and involves complex issues that may be difficult to interpret. In order to adequately support your case, extensive research of information and documents must be conducted. Also, technical issues such as access control, CCTV and security systems may be reviewed. These are time-consuming activities that can be performed best by a security expert. JD Security Consultants offers security professionals that are not only Board Certified in Security Management and Physical security, but also have over 25 years experience in the law enforcement and security field. We have worked on cases involving college/university, hospital, and parking lot security litigations.

TRUST AN EXPERT TO PREPARE YOU FOR YOUR SECURITY-RELATED LITIGATION.

- The development of deposition questions for security experts, management, and security employees
- A review and analysis of reports, statements, and depositions
- The preparation of discovery documents
- Court testimony and documentation for depositions, mediations, arbitrations, and trials
- The creation of charts, graphs, photographs and models to be used as trial exhibits
- Comprehensive and detailed written reports with opinions and conclusions

Have you considered?

- What practical security experience your expert possesses?
- What broad areas of security expert witness litigation were handled by your expert?
- How successful your security expert was in the litigations handled?

Choose Board Certified professionals when you are facing security-related litigation. Call JD Security Consultants, LLC at 610.269.8086 to learn the details you need to know to fully protect yourself and your organization.
