

Get the security training you need.

Do you need training to meet expectations or current security requirements, especially the 2004 ASIS International Security Officer Training Guideline? JD Security Consultants can provide up-to-date instruction to your security staff, supervisors, administrators, and employees in all areas of security management. Below are just a few of the specialized topics:

AVOID SECURITY-RELATED LITIGATION WITH THE PROPER TRAINING & EDUCATION.

- Crime Prevention
- Patrol Procedures
- Public Relations
- Communications
- Supervision
- Security Awareness
- Emergency Response
- Crisis Management

Have you considered?

- Is your security training program tailored to your unique requirements?
- Does your security training cover the topic requirements of current guidelines or best practices for the area of instruction?
- Is the trainer well credentialed and experienced?
- Is there testing of the trainees at the conclusion of the program?
- Is a certificate of successful completion provided to each trainee with written documentation to the employer?

Get the security training and education you and your team needs to be protected and armed against risks. Call JD Security Consultants, LLC at 610.269.8086 to learn the details you need to know to fully protect yourself and your organization.
